

PIPE TROLLEY STORAGE RACK SPECIFICATIONS

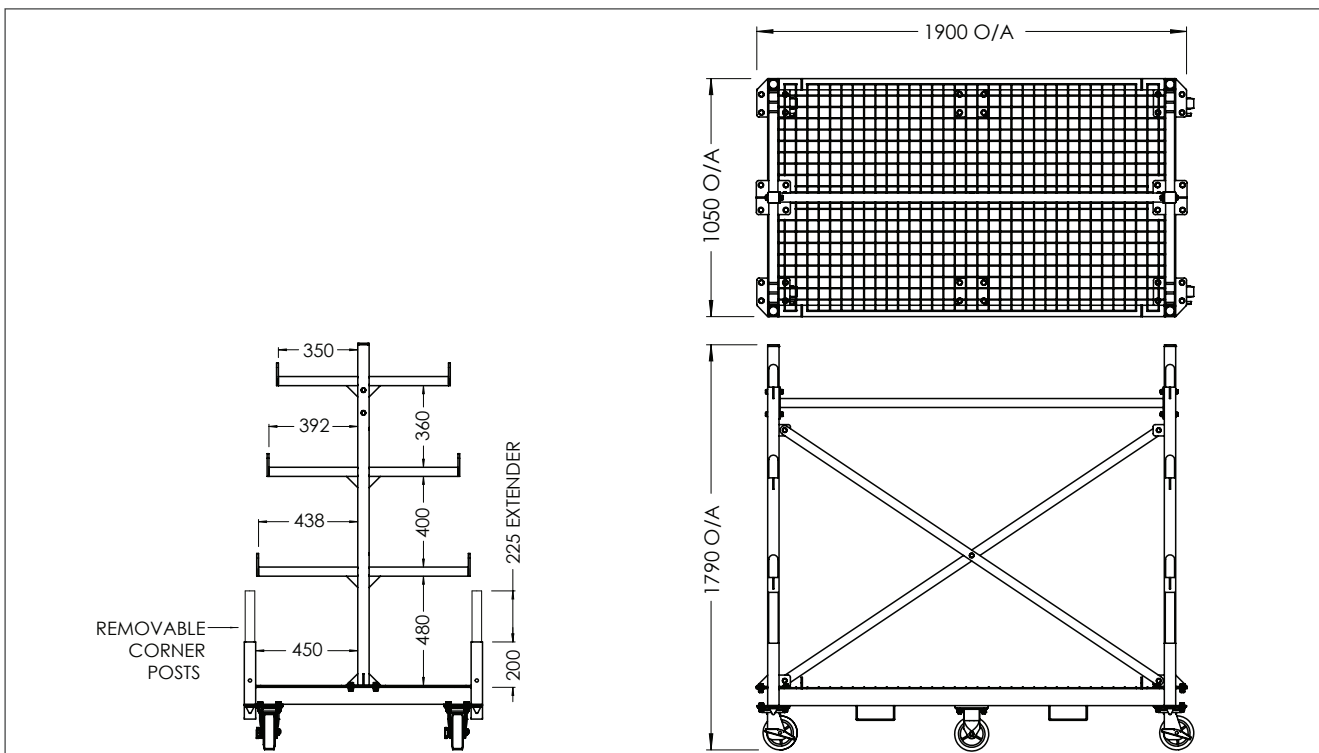

BAPT200 Pipe Trolley is designed to safely store and transport long length materials such as pipe and conduit on site. These mobile storage solutions increase worker productivity by keeping materials organised and close to work areas.

FEATURES:

- Suitable to store and transport long materials such as pipe, conduit, tubing & bar stock
- Heavy duty construction for maximum stability
- 8 spaces available for sorting and accessing pipes
- Mesh base allows placement of short offcuts
- Arm stops and mesh base prevent items falling off
- 4 removable corner posts secure varying load heights and allow easy access
- 6 Industrial 150mm poly/cast wheels (2 fixed, 4 swivel with brakes) allow manoeuvring of trolley when fully loaded
- 4 corner tie down points to suit various load sizes
- Fork stirrups fitted moving around site with a forklift
- Zinc-plated finish
- Supplied standard as flatpack for on-site assembly.

Working Load Limit (WLL)	2000kg
Dimensions	1900(l) x 1050(w) x 1790(h) mm
Unit Weight	125kg

NOTE: Due to transport safety requirements wheels are supplied for fitment onsite, not pre-fitted.
