

# ROLL-OVER PALLET SAFETY GATE

The **Roll-Over Gate** is a mezzanine pallet safety gate. It allows pallets to be loaded and unloaded from mezzanine floors safely. The pallet access gate is fast to install, very sturdy and easy to use.

It leaves no exposed edges, keeping operator's safe from the risk of falling. The Gate has side barrier panels and a double-sided gate that pivots allowing access to one side at a time. Its made from steel with powder coat yellow finish.

The advantage of this gate compared to conventional sliding access gates is increased safety and ease of use. The process is simple and safe. To open the gate, simply roll the gate back, exposing the load area to the forklift operator.

Place pallet on the load area and roll the gate into the closed position leaving the pallet accessible to be removed with a pallet jack or unstacked. Everybody is kept safe with no exposed edges. The Roll-Over Gate is beautifully balanced and requires no force to operate, it will raise and lower smoothly every time.

## Specifications

| CODE         | SIZE                  | PALLET SIZE           |
|--------------|-----------------------|-----------------------|
| <b>DV201</b> | 1925 wide x 2300 high | 1400W x 1250D x 1800H |
| <b>DV202</b> | 1925 wide x 2650 high | 1400W x 1250D x 2400H |
| <b>DV203</b> | 2400 wide x 2300 high | 1950W x 1250D x 1800H |
| <b>DV204</b> | 2400 wide x 2650 high | 1950W x 1250D x 2400H |
| <b>DV205</b> | 3475 wide x 2300 high | 3025W x 1250D x 1800H |
| <b>DV206</b> | 3475 wide x 2650 high | 3025W x 1250D x 2400H |

Pallet depth is based on maximum height, the lesser the height the pallet depth will increase accordingly.

## Compliance

The most common cause of non compliance on a mezzanine floor is the load gate.

Roll-over Gate design ensures that compliance is maintained at all times.

## Our roll-over gate is the ultimate choice for the following reasons:

- ✓ It complies with the current Australian Standard
- ✓ Makes loading and unloading pallets from your mezzanine easy and safe
- ✓ It leaves NO exposed edges therefore eliminates fall risk
- ✓ Has NO pinch points
- ✓ Powder-coated yellow – looks great and prevents rust
- ✓ Strong and sturdy design with a smooth and well-balanced action
- ✓ Easy to install (no cutting, no welding, no mess) approx. 30mins
- ✓ Comes in kit form (all fixings included)
- ✓ Available in various sizes to suit your specific needs
- ✓ Keeps your workers SAFE!

Our pallet gate has twice the steel than other rollover gates, providing added durability against unforgiving forklift operators, and makes personnel feel safe. Our gate complies with Australian Standards.
